

It is time for Sophomore SEOP's! (Student Educational and Occupational Plan)

These very important meetings will be held beginning **March 31st through April 9th**. The counselors will meet with all sophomore students in the Little Theater during their English classes. They will cover important information about registering for 11th grade and discuss their educational and career goals. Specific information about courses, off-campus programs, college preparation, and graduation requirements will be given.

The on-line registration process will also be explained!

After Spring Break at the end of April, students will be required to go on-line and choose their classes, including periods and teachers. Because they are creating their own schedules, careful planning will be needed. Please make every effort to attend this short meeting with your student. Your input is very important as your student chooses courses and prepares to accomplish their educational goals. An English class schedule is included below.

Please check with your student regarding his/her teacher and period.
